Guidelines for Prescribing Central Line Care/Peripheral IV Start
(Required documentation with all initial referrals)

Patient Name: _____

Referral Date: _____

_____ Include signed and completed **Plan of Treatment**. (MD must complete sections 1-7)
(Infusion order forms & Standard Adverse Reactions orders are available at www.palmettoinfusion.com under Agency/MD tab)

_____ Include patient demographic information and insurance information. (Copy of insurance cards if available)

_____ **Supporting clinical MD notes to include rational for line type and/or treatment. Include any documentation on line type, device information, and/or procedure insertion note if available.**

_____ Other as requested: _____

**** Warnings/Precautions:** Please counsel patient in risks, side effects, complications, and importance of compliance with care of peripheral IV or central line device. **Heparin Flush:** Hematologic side effects have included new thrombus formation in association with thrombocytopenia resulting from irreversible aggregation of platelets induced by heparin. Heparin sodium should not be used in patients: with hypersensitivity to heparin; with an uncontrollable active bleeding state, except when this is due to disseminated intravascular coagulation; with inability to perform suitable blood-coagulation tests, e.g., whole-blood clotting time, partial thromboplastin time, etc. at required intervals. There is usually no need to monitor effect of low-dose heparin in patients with normal coagulation parameters. See full prescribing information.

Palmetto Infusion Services will complete insurance verification and submit all required clinical documentation to the patient’s insurance company for eligibility. Our office will notify you if any further information is required. We will review financial responsibility with the patient and refer them to any available Co-pay assistance as required. Thank you for the referral.

Please fax all information to 1-866-872-8920 or call 1-800-809-1265 for assistance.
