_____

Pre-Screening:

___ **Required TB screening results: PPD or QuantiFERON Gold Test.**
(* If screening results are positive or indeterminate, then a negative CXR result is required.)

___ **Required Hepatitis screening to include: Hepatitis B Surface Antigen results.**

** Warnings/Precautions: Patient should not have an active ongoing infection, signs or symptoms of malignancy, or invasive fungal infection. **COPD patients** may develop more frequent respiratory adverse events. Orencia® in patients with RA and COPD should be undertaken with caution and such patients should be monitored for worsening of their respiratory status. **Blood Glucose Monitoring:** Orencia® contains maltose and can interfere with the readings of blood glucose monitors that use test strips with (GDH-PQQ), resulting in falsely elevated blood glucose readings on the day of infusion. **Hepatitis B Reactivation:** Monitor HBV carriers during and several months after therapy. If reactivation occurs, stop Orencia® and begin anti-viral therapy. Evaluation of immunizations should be completed prior to and **live vaccines** should not be given before or concurrently with Orencia®. See full prescribing information.

Palmetto Infusion Services will complete insurance verification and submit all required clinical documentation to the patient's insurance company for eligibility. Our office will notify you if any further information is required. We will review financial responsibility with the patient and refer them to any available Co-pay assistance as required. Thank you for the referral.

Please fax all information to 1-866-872-8920 or call 1-800-809-1265 for assistance.
