Provider Attestation for HCP administration:

☐ Provider attests that the patient or caregiver is not competent or is physically unable to administer the Xolair labeled self-administration.

☐ The location and circumstances for self-administration are not adequate for the potential treatment of anaphylaxis should that arise.

☐ Patient has experienced severe hypersensitivity reactions to Xolair or other agents, such as foods, drugs, biologics, within the past 6 months or requires administration and direct monitoring by a healthcare professional.

☐ Patient has a history of uncontrolled disease and ordering physician attests that in their clinical opinion, it is not advisable to try the self-administration formulation of requested drug.

☐ Patient has not received at least 3 doses of Xolair under the guidance of a healthcare provider with no hypersensitivity reactions*.

☐ Due to patient's weight, ordering provider attests that in their clinical opinion, it is not advisable to try the self-administered formulation of requested drug.

*Specific reactions:_____
