3	Full medication list		NEXT INJECTION DATE:
4	Tried and failed therapies		IF ORDER CHANGE:
5	Lab results and/or tests supporting primary diagnosis		Continue current order until insurance approved

MEDICATION ORDERS:

NOTE: We **may** require a detailed Letter of Medical Necessity or clinical supporting documentation (depending on diagnosis), to be able to verify eligibility and payment for this treatment through Medicare and/or other insurance plans. Inform patients that AMVUTTRA® treatment leads to a **decrease in vitamin A levels** measured in the serum. Instruct patients to take the recommended daily allowance (RDA) of vitamin A. Higher doses than the RDA should not be given to achieve normal serum vitamin A levels during treatment, as serum levels do not reflect the total vitamin A in the body.

DOSE/FREQUENCY:

Amvuttra®: Administer 25mg/0.5ml via subcutaneous injection every 3 months into the abdomen, upper arm, or thigh.

SPECIAL ORDERS:

Refills x 12 months unless noted otherwise here:

NURSING ORDERS:

Provide nursing care per Palmetto Infusion Nursing Procedures and post procedure observation if indicated

ADVERSE REACTION & ANAPHYLAXIS ORDERS:

Administer acute infusion and anaphylaxis medications per Palmetto Infusion standing adverse reaction orders, which can be found at our website.
